Re:  
Debra A Tinlin  
408 E Park St  
Bonduel WI 54107

DOB: 3/6/1964

To Whom It May Concern,

Debra Tinlin is followed in my neurology clinic. She is wheelchair bound due to long-standing right leg paralysis and bilateral upper extremity dysmetria complicated by muscle spasms and poor endurance. In my opinion, she is unable to travel either by car or by plane to Phoenix. Please make appropriate accommodations.

Sincerely,

A handwritten signature in black ink, appearing to read "H Stanko", with a stylized flourish at the end.

Heather A Stanko, MD
